AI Readiness Checklist for Small Businesses

Answer yes or no. Every yes is a candidate for your first AI project.

[ ] Do you retype the same information into more than one system?
[ ] Do customers wait more than a day for a routine reply?
[ ] Does anyone write the same kind of email more than 5x a week?
[ ] Do you have documents nobody can find when they need them?
[ ] Does scheduling or quoting eat more than 2 hours a week?
[ ] Do you make decisions without the numbers because pulling them is slow?

Score: 0-1 yes = wait. 2-3 yes = one good pilot. 4+ yes = audit pays for itself.
